21.3 Contingencies

21.3.1 Tax contingencies

- i) The Appellate Tribunal Inland Revenue (ATIR) Islamabad did not accept the Company's contention on certain matters in appeals relating to tax years 2004 to 2006, 2008 to 2010 and 2012 to 2014. These issues mainly relate to disallowance of provision for non performing loans and apportionment of expenses between income subject to final tax regime and normal tax regime. The Company has filed tax references before the Islamabad High Court. For tax years 2004 to 2006 and 2008 to 2010 the Islamabad High Court (IHC) remanded back the matters of disallowance of provision for non performing loans and apportionment of expenses between income subject to final tax regime and normal tax regime to the assessing officer. However, appeal effect proceedings yet to commence. For tax year 2012 to 2014, cases are still pending adjudication. The Company however, accounted for the impact of tax of Rs. 617.237 million on provision for non performing loans & advances by routing it through Profit & Loss in the year 2018.

The related tax demands for all the aforesaid tax years aggregate to Rs 1,091.694 million, out of which Rs 635.194 million has been paid by / recovered from the Company.

- ii) For the tax years 2015 to 2018, the assessing officer amended the Company's assessment under section 122(5A) of the Income Tax Ordinance 2001 and created an aggregate tax demand of Rs. 1,463.932 million by making various add backs and disallowances. The Company preferred appeals before Commissioner Inland Revenue - Appeals [CIR(A)] who in terms of separate appellate orders remanded majority of the matters to the assessing officer and on certain matters upheld the actions of assessing officer. The Company has preferred separate appeals before ATIR for aforesaid cases which are pending adjudication.
- iii) For tax years 2015 to 2017 proceedings under section 161 were initiated and cumulative demand of Rs. 276.482 million was created on account of alleged default in withholding of tax out of which Rs 26.034 million has been paid by / recovered from the Company. The Company preferred appeal before the CIR(A) who remanded certain issues and upheld certain matters. The Company preferred further appeal before ATIR which is pending adjudication.

The management, based on the opinion of its tax expert, believes that the above mentioned matters are likely to be decided in favour of the Company at superior appellate forums and therefore no further charge is required to be recognised in these unconsolidated financial statements.

21.3.2 Other contingent liabilities

There is no change in the status of contingencies and commitments of the Company from the status given in the preceding audited annual financial statements for the year ended December 31, 2024.

SAUDI PAK INDUSTRIAL AND AGRICULTURAL INVESTMENT COMPANY LIMITED
NOTES TO THE UNCONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS [UN-AUDITED]
FOR THE PERIOD ENDED JUNE 30, 2025

35 FAIR VALUE MEASUREMENTS

The fair value of traded investments is based on quoted market prices, except for securities classified by the Company as 'held to maturity'. Securities classified as held to maturity are carried at amortized cost. Value of unquoted equity investments, other than subsidiary and associates, are determined on the basis of break up value of these investments as per the latest available audited financial statements. Further, financial statements of several unquoted equity investments are not available whether due to liquidation or litigation, hence, breakup value of these investments cannot be determined.

Fair value of unquoted debt securities, fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to the absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Company's accounting policy.

Fair value of remaining financial assets and liabilities except fixed term loans, staff loans, non-performing advances and fixed term deposits is not significantly different from the carrying amounts since assets and liabilities are either short term in nature or are frequently repriced in the case of customer loans.

35.1 Fair value of financial assets

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets (Pakistan Stock Exchange) for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) available at Mutual Fund Association of Pakistan (MUFAP), Reuters page, redemption prices determined by valuers on the panel of Pakistan Bank's Association.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

Valuation techniques used in determination of fair valuation of financial instruments within level 2 and level 3

Items	Valuation approach and input used
Federal Government securities	The fair values of Federal Government securities are determined on the basis of PKRV rates / prices sourced from Mutual Funds Association of Pakistan (MUFAP) and these securities are classified under level 2.
Non-Government Debt Securities	Investment in Non-Government Debt Securities determined in Rupees are valued on the basis of rates announced by MUFAP. These are classified in level 2. Where market rates of these securities are not available on MUFAP as at June 30, 2025, therefore, these securities are classified level 3.
Unquoted Investment	The fair value of investments in unquoted equity securities are valued on the basis of dividend discount model / price to book multiple.

35.2 The Company's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date of the event or change in circumstances that caused such transfer. There were no transfers between levels 1 and 2 during the year.

Valuation techniques used in determination of fair valuation of financial instruments within level 2 and level 3

Items	Valuation approach and input used
Fixed assets and non-banking assets acquired in satisfaction of claims	Land, buildings and other fixed assets and non-banking assets acquired in satisfaction of claims are revalued on a periodic basis using professional valuers. The valuation is based on their assessment of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented in these unconsolidated financial statements.
